The Four-Way-Test

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIP?
4. Will it be BENEFICIAL to all concerned?

The object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

First: The development of acquaintance as an opportunity of service;

Second: High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and dignifying by each Rotarian of this occupation as an opportunity to serve society;

Third: The application of the ideal of service by every Rotarian to his personal, business, and community life;

Fourth: The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional men and women united in the ideal of service.

Rotary International

October 2009

With polio, our determination must not waver.

On 24 October, we mark World Polio Day. It is a time to reflect on the progress we have made and to strengthen our resolve for the work ahead. It is a time to raise awareness of our efforts to eradicate

polio, and to help meet Rotary's US\$200 Million Challenge.

We have come a long way. We have reduced the number of polio cases by over 99 percent, from more than 350,000 a year in the 1980s to about 1,650 in 2008. We have brought the number of endemic countries from 125 to 4. And we have vaccinated over two billion children.

We are proud of these accomplishments, and we are closer than ever to achieving our goal of worldwide eradication. But we must recognize that our greatest enemy is complacency. We cannot slacken our efforts now, because as long as there is wild poliovirus anywhere, the disease can easily spread again. The number of cases in endemic countries is down this year, but the number of cases in countries where polio has been reintroduced has increased significantly – a reminder of how polio knows no borders, and how vigilant we must remain.

Polio is still endemic in Afghanistan, India, Nigeria, and Pakistan. Difficult terrain, civil unrest, remote settlements, poor sanitation, and terrible poverty are just some of the obstacles to immunization. But we, and our partners in the Global Polio Eradication Initiative, are determined to continue our work with persistence and creativity.

I have been inspired by the incredible strides already made this year: In one 10-day period, a total of 222,270,331 children in 22 countries were immunized against polio. The effort and the commitment are phenomenal. This is a testament to the resolve that has brought us this far – and that will soon bring us to our goal of complete eradication.
